

## **SyrinX unified communications add-on**

Unified Communication plugin. Click to dial, presence and IM integrated into the webaccess

In the context menu from the contact lists there is an option added to click and dial the number. This option works in conjunction with SyrinX Open Unified Communication platform (asterisk based). The CE of this plugin only enables click and dial, the enterprise edition also enables a full integration of presence, messaging and calendaring routing.

The plugin will be available for download on [www.syrinx-uc.com](http://www.syrinx-uc.com)
